Python Full Stack Development

Techy Toper
Jan 2026 – Jun 2026

Advanced Web Designing Internship

Malaria Software Solutions

PROFILE

Fresher Python Full Stack Developer skilled in Python, FastAPI, React JS, HTML, CSS, JavaScript, Bootstrap, MySQL, REST API, Git and GitHub. Passionate about developing scalable web applications, writing clean code, and continuously learning modern technologies to deliver reliable, user-focused software solutions.

EDUCATION

Diploma in Computer Engineering	2022 – 2025
Merit Polytechnic College	
Percentage: 93%	
SSLC	2019 – 2020
S.S.V. Hr. Sec. School	
Percentage: 50.6%	

PROJECTS

Clinic Appointment Management System

- Developed a full-stack clinic management system with modules for doctors, patients, and appointments.
- Built the frontend using HTML, CSS, Bootstrap, and JavaScript for a responsive user interface.
- Developed the backend using Python FastAPI with MySQL as the database.
- Implemented CRUD operations, RESTful APIs, and user authentication.

User Management Dashboard

- Built a responsive admin dashboard using HTML, CSS, and JavaScript.
- Implemented complete CRUD functionality for managing user records.

Todo Application

- Developed a task management app using React JS with Add and Delete features.
- Integrated Local Storage to persist tasks across browser sessions.

eBook Validation & Styling

- Created a standards-compliant EPUB 3 eBook using XHTML and CSS.
- Developed content.opf, nav.xhtml, and structured EPUB folder hierarchy.
- Designed and added a professional cover image for the eBook.
- Validated the EPUB using EPUBCheck and fixed all validation errors.
- Produced an error-free EPUB file compatible with major eBook readers.
